FF TLF 5000 4X4 WF

WILDLAND FIRE ENGINES

CHASSIS DESCRIPTION

- ▶ Chassis (brand, type): VOLVO FL 14-250 4x4 or similar
- ▶ Engine power (kW/HP): 188/255
- ▶ Wheelbase (mm): 3500
- ▶ Crew: 3 (1+2)
- ▶ GVW (t): 14
- ▶ Dimensions of the vehicle LxWxH (mm): 7000 x 2500 x 3299
- ▶ Drive: 4x4

BASIC FIREFIGHTING EQUIPMENT

- ▶ Water tank capacity/foam (l): 5000/0
- ▶ Water/foam tank material: PPC
- ▶ Firefighting pump EN 1028, normal pressure FPN 10-2500
- ▶ Firefighting pump EN 1028, high pressure FPH 40-250
- ▶ Automatic vacuum device
- ▶ Rapid intervention hose reel with nozzle and electrical reeling
- ▶ High pressure rapid intervention hose reel hose length (m): 30 x 2 pieces (left and right)
- ▶ Firefighting equipment brackets
- ▶ Ladders for superstructure roof access
- ▶ Cabin and chassis self-protection with nozzles
- ▶ Roof turret, water capacity: 200-2400 l/min, mounted on the roof of the superstructure
- ▶ Aluminium tool box on roof of the superstructure
- ▶ Front rescue winch
- ▶ Additional external tubular protection around the cabin (roll bar)

SIGNALIZATION

- ▶ Regulated firefighting signalization
- ▶ Roof-mounted rotating beacons
- ▶ LED flashlights on the front and rear of the vehicle (quantity) 2+2
- ▶ Multi-tonal fire siren with PA system
- ▶ Set-up for installation of the radio
- ▶ All main signs in the client's language
- ▶ Visual appearance according to client's request

SUPSTRUCTURE

- ▶ Superstructure material: PPC + Alu
- ▶ Lateral equipment compartments with side door or roller shutter with a bar lock (quantity): 2
- ▶ Open rear compartment for firefighting pump
- ▶ Automatic internal LED lightning of the compartments
- ▶ LED lighting of the surroundings, laterally and rear
- ▶ Well arranged and easily accessible firefighting equipment
- ▶ Heavier equipment fitted low and easily accessible
